

Taguig City University should have a simple yet very understandable module for students we should expect that online classes are much more challenging and they are more prone to distractions. A very exciting lecture will help them to give their full attention to their teachers.

Professors should have a time to time connection between their student during classes, it will help them to boost their confidence even if online classes are implemented it is really important to know that each student understand very well the topics that are being discuss.

College of Education should have an additional trainings and seminars for their pre-service teachers to cope up with the transition of distance learning and a more often actual presentations with the student will easily help them to adopt the technique's needed for online learning.
